Course Leaders / Lecturers:-

- Quest lecturer: **Craig Frew MSc IHBC, Technical Consultant, LTM Group Ltd. (Laing Traditional Masonry) www.ltm-group.co.uk**
Craig provides technical and specification advice internally on LTM's own contracts and to external clients, with a focus on lime mortars and traditional masonry repair and conservation. Prior to joining LTM, he was Senior Buildings Consultant with the Scottish Lime Centre Trust and Conservation Officer for Dundee City Council. Craig has particular experience in the specification and use of lime mortars, external lime coatings to traditional buildings, hot-limes and gauged mortars. He has written, a number of articles on lime mortars for various journals including The Building Conservation Directory and the Journal of the Building Limes Forum. Craig is also a Committee Member of the Building Limes Forum.

Course Co-ordinator: **Pat McAfee** – Stone Mason, Instructor, Author of “Lime Works”

Event Co-ordinator: **Manfredo Anello** – Architect

Outcome and goals of event:

Specifiers attending the lime Training Workshop will find out:

- Why they should use lime for the repair of older buildings and for new build
- To gain knowledge in order to specify lime use on projects
- To ensure that the work is carried out to the specified standard
- Where to get more information about lime

CPD: This course has been approved for RIAI CPD Links accreditation
The CIF encourages attendance at these workshops
