My Lord

The Total amount due by the Town Commissioners at present is £1078.12.4 for Debentures and Interest, and as they are not otherwise indebted (except by judicious Management) that at the end of the ensuing three Years they will not owe £200

Your Lordship being the principal Debenture holder, The Commissioners order me to forward the enclosed accounts, which they trust will meet your Lordships approbation,

Glasbally Septemb^r 17th 1849

Sir

I beg to acknowledge with many thanks your letter and the accompanying account of the Receipts and Disbursements of the Town Commissioners for the last three years, with which they have been so good as to direct you to furnish me,

It is most satisfactory to find that concurred with a very large reduction in the price of gas to the consumers, the Commissioners have by able & judicious Management been enabled to present so encouraging an account, clearly shewing that after a very few years the entire expense of lighting, cleansing and watching

Friday 21st September 1849 continued

the town will be altogether defrayed by the profits on the sale of a right in the use of which Ballinastoe stands so much in advance of the generality of Provincial towns & the inhabitants have found so much convenience.

Having originated the proposition of placing the town under Commissioners of Improvement, I cannot but feel in the highest degree gratified as well by all I have heard of their proceedings as by the evidence of the account before me, that they have so faithfully & efficiently given themselves to the performance of the duties they have undertaken towards their constituents.

I am Sir

Yours faithfully
