

Resolved - That as this Board cannot arrange with regard to a satisfactory settlement of the Ballyconneely Graveyard Mr. O'Flaherty refusing to accept the valuation of our Chairman Mr. H. Robinson for a new site and as there is conflicting evidence regarding the suitability of the ground already purchased we request that the Local Government Board will compel a compulsory sale of a suitable site or send down an Inspector to examine the ground already purchased so as to finally decide regarding its suitability and settle this question.

The clerk stated that he was served with a process at the suit of Mr. Thomas O'Malley against the Guardians for £10 for trespass done to his farm at Ballinacilly. Ordered - Case to be defended under the circumstances noted in minutes of Board of Guardians of 26th March 1890 and 20th May 1891.

a loan for their utilization as a source of drinking water supply, unless most exceptional necessity could be shown to exist for resorting to them.

Resolved, The Guardians find that in consequence of the pressing reports of the Medical Authorities as to the polluted and unsanitary state of the Water Supply in Kellipden, In the year 1880 the Board of Guardians employed an Engineer to construct waterworks to convey a supply of water from Loughanema N<sup>o</sup> 1 in report of Sir Charles Cameron, the only available source of supply then known to the Guardians the local Government approved of the required loan of £1500 (Board meeting 2<sup>nd</sup> March 1881) a Contract was entered into for carrying out of the works, but for some reasons which the present Guardians are not aware of the Contract was not carried out, In consequence of the continued pressing reports from the Medical Authorities subsequent Board employed Mr. Perry the County Engineer to report on the possibility of obtaining the necessary supply of water by siting pumps in favourable positions and a Committee of the Guardians appointed to attend him his report was unfavourable owing to the peculiar geological formation of the ground he could not calculate on a sufficient constant supply, the Medical reports continued became very urgent an appeal from the principal clergy and inhabitants of the town (herewith forwarded) obliged the Guardians to take measures without delay, the Guardians directed Mr. Perry to examine the district and report

where and how a proper supply of pure uncontaminated water could be procured after a careful examination he reported in favour of lake N<sup>o</sup> 2. (Loughnambrack Reagh in Sir Charles Cameron's report, and now under consideration as being the only other source available, a peaty water but not unwholesome not the best spring for drinking but the best procurable, uncontaminated; - Samples were sent to Professor Cameron he rejects N<sup>o</sup> 1 (Loughanema) as bad, and reports that N<sup>o</sup> 2. (Loughnambrack Reagh) stood the test well, is a fairly good water, not the best drinking water, which is not to be had in the vicinity, he does not say it contains unwholesome matter peaty water being wholesome,

The Local Government Board will observe that the water would come by the Workhouse, and bring the supply in its course to the proposed Railway Station, an object with regard to the expense, under all these circumstances, the water being the best available, not being unwholesome, the appeal from the inhabitants of the town urgent and pressing, Cholera in the near distance the Guardians receiving constant communications from the local Government Board as to the necessary preparations to be made to meet this threatened visitation, the Medical reports still urgent and pressing, the Guardians the Sanitary Authority respectfully request the local Government Board will see their way to recommend the proposed loan with as little delay as possible. The Engineer reports that if his ably executed plan is not carried out no other source of supply is available, the water is not unwholesome the supply is ample, and the case is urgent.
