I beg to state that I frequently attended the late Judy Solan of Derryginla. She was suffering from "persistent Anaemia" and died from exhaustion caused by that disease - In my opinion her death was not due or accelerated by want of sufficient nourishment -

On many occasions I strongly urged the people in charge of this girl to send her to Hospital for treatment - I pointed out the necessity for this course, but they unfortunately refused to adopt my recommendation.

From Chaplain's Book.
July 18th

Visited this Workhouse. Had to learn from Master and Mistress that the conduct of the inmates is satisfactory. Saw the infirm wards, while no doubt the guardians generously supply what is needed, it is but just to call attention to the exceedingly bad condition of the bedding especially in the male Infirm Wards. The ticking is simply rotten and the straw in a damp state protruding thro it, with all respect we feel bound to say a change in this matter is indispensably necessary, but for us to suggest anything. But we would take leave to say fibre mattresses would in the end be cheapest and most enduring. The old saying is rarely falsified "The best article in the end turns out to be the cheapest"

The Clerk's Report of Vaccination was read—(this on the first meeting in every month)
—Number of successful cases:— 59. Vaccinations Revolved

The Report of the Visiting Committee was read, and Orders were made thereon as follows:—

* would be nothing short of a plank bed, one too hard for the old and infirm inmates to lie upon. But certainly if straw beds are to be continued I would suggest that the Guardians ought not to accept cheap ticken when next considering tenders for clothing as the material presently under contract is I might say unfit for further use after the first washing.

Ordered - That the Clerk communicate with the Contractor asking her to submit a better sample of ticken quoting price on next Wednesday, informing her that the Guardians will be prepared to give an increased price for a better quality in lieu of the ticken presently under contract - and the Guardians request that the Local Gov. Board, ^{will approve} of this arrangement.

The Reports of the Master and other Officers were read, and Orders made thereon as follows:

From the Master
Gentlemen,

With reference to the report of his Grace the Archbishop of Tuam on his recent visit to the Workhouse which you have referred to me for report—

I beg to state that the ticken is certainly bad, as it is of a very inferior quality, when the straw is put into the ticks the material gives way. The only cause I can assign for the dampness is the disinfectants used the previous week, as the straw when put into the ticks was free from damp. — If only for sanitation purposes alone fibre mattresses would be a great improvement; but if the Guardians should be disposed to purchase them, I think it right to point out that iron bedsteads fitted with galvanized woven wire mattresses will be necessary. as placing a fibre mattress on a wooden stretcher
