I fancy myself that 100 tons will be sufficient
However it is only my opinion and I was
thinking that as your representative when here
I was of the gardener's inquiries said that
I should be the gardener's require an extension of
two pounds per year that specified in the advertisement
a receipt or it would make no difference. You
might now be able to suit two farmers with
300 pounds each without adding very much
to the price.

I shall be pleased to hear from
you.
