Ballynaghol Roads:

The Finance Committee consider that the proceedings of the Ballynaghol District Council at the O.M. of the 7th April following which a formal Order was sent to the County Council require strict investigation:

Unless a proper record of the O.M. is furnished the Finance Committee will not make any payments in respect of public works in this District

and may have to consider the desirability of requesting the County Council to ask for a sworn inquiry in order to protect the members of the Council from loss

Rate Collection

Acting Secretary's Report:-

The amount of Rate outstanding on the
 31st December 1917 was £44,579.- and there
 was a Debit Balance against the Council
 at their Bankers on that date of £8134.5.6:

Subsidiary Account Paying Orders
 for public works are being issued aggregating
 at least £1000, per week, and there will
 not be any considerable lodgments
 (other than Poor Rate) until the end of
 March 1918

The Council is in a good financial
 position, ~~or~~ - or at least would be so if
 the Rate Collectors were doing their duty
 with even moderate diligence.

Upon the whole the state of the Collection
 shows great neglect - Only 1/4 of collectors out of
 35 had 50% collected & lodged on the 31st
 December

Collectors Hauning, Shield & Cunningham
 are particularly bad, and in 25 cases under the
 40% line action seems to be called for:

I recommend that the Collectors under the 30%
 line be informed that their cases have been specially
 adjourned to the meeting to be held on the 6th February
 and that if in the meantime their accounts be not put
 in a satisfactory state the Council will be asked
 to suspend unsatisfactory Collectors from office.

Naval & Military War Pensions Act.

Read letter 4/1/1918

Order The Finance Committee decline to make
 any provision in their Estimates under this
 Act. Naval & Military War Pensions are purely
 Imperial affairs, ^{the cost of} which should be borne
 by Imperial & not by local taxation.

Registration Expenses

Submitted Correspondence from which it appears that the Claim of the Registration officer to determine whether the Local Officers are to be paid by him and not by the County Council is not sustainable

Sent for Registration apes - Registration Officer says they are not ready

Order - apply to Clerks of Union, Clifden, Galway, Port Oughterard & Tuam for the Officers apes and send the accounts for the whole of the Local Officers of the County direct to the Local Government Board if Registration Officer does not certify accounts within a week.

The Finance Cler draw attention to the fact that it is most undesirable that officers who on the 29th Sept have to close collection apes and lodge money whether collected or not should be kept out of monies actually expended by them in the public service for a period of three months

Estimates were submitted and adopted subject
to the following note (to be printed on
Estimates and Circulated)

This Estimate is based on the County Surveyor's Estimates in
regard to Public Works i.e. wages rate of 25 per week to Rural
Labourers. If these wages are increased the rates now
proposed do not provide for such increase, and it is
suggested that the County Council give a direction
to the County Surveyor that the amounts provided
in the Estimates must not be exceeded. In certain
eventualities this may necessitate a reduction in
the amount of work done. The only alternative is to
increase the rates set out in this Estimate
