The Council therefore desire to adhere to their decision appointing Mr. Michael Hobbs a Rate Collector and ask the Local Government Board to sanction the appointment without undue delay as it is important to have the collection of the current rate proceeded with at once

Secretary reported that the sum of £610-15-4 which the Council had refused to pay, had been deducted by the Government from sums payable to the County Council out of the Local Taxation (Ireland) Account, and asked whether in view of this state of affairs he was to make a rate on the districts liable for the payment of the said sum of £610-15-4 in the next estimate.

Order Secretary to provide for the levy of this sum on the area charged in the Police account in the next estimate.

£ 6-4-1 to Rural district of Glenamaddy.

£ 12-8-10 to Rural District of Tuam, and

£ 120-6-10. to the Urban Districts of Galway and Ballinsloe and the Rural Districts of Glenamaddy, Tuam, Galway, Loughrea and Ballinsloe and Port.

I certify that the above named Collectors had, on the 10th October collected and lodged to Credit of the County Council in each case sums equal to at least 50% of the total amount included in the warrants for the year ended March 1908

W. Gordon Seymour Secretary

Read letter on behalf of Rate Collectors signed by Collectors Hobbs & Morgan
Read Local Government Boards letter of 29th October

The Chairman proposed, Councillor Kelly, seconded

Order Council Consider that the Collectors named in the Secretary's list and referred to in his certificate should be paid on the following grounds.

1. It is inexpedient to apply too drastically the provisions of the Public Bodies Order in this the first half year to which the new conditions of the Order apply. The Collectors should get some time to thoroughly grasp the liabilities thrown on them under the new Bonds.
 2. The difficulty of collection is greatly increased by the amount of land involved in the operations of the Estates Commissioners which remains unrevised and in regard to which it is in many cases impossible to collect rates. The Council consider that the Collectors should not be penalized by this state of affairs which is not of their creation
 3. All the second instalment of seed Rate is included in the first half years collection rendering it much more difficult to collect than the 1st instalment which was collected in equal moieties with the 1906-7 Rate.
- Passed

Councillor Malley proposed

Councillor Larkin seconded, and it was Resolved

That the Council consider it is a grievous hardship on Rate Collectors to be compelled to lodge rates on Estates purchased and being divided which are not revised as the lodging of such Rates would be impossible with any but wealthy Collectors.

Therefore we ask the Local Government Board to alter the Public Bodies Order so that allowance be made in all such cases and the Council enabled to pay poundage on all other collectable Rates which are duly lodged

Councillor Duvalley proposed

Councillor P. J. Kelly seconded

That Owing to the exceptional Circumstances of the Collection District of Collector Maurice Sweeney which includes numbers of vacant farms on which Rates cannot be collected the Council recommend that Collector Sweeney be paid poundage on the sum amounting to 48% of the years warrant, now lodged Passed.

Councillor Duvalley proposed

Councillor Larkin seconded

That in view of the excellent collection made by Collector P. M. Joyce who did not get his warrants till the 28th August the Council decide to pay his poundage subject to sanction of Local Government Board.

The business of the Proposal Committee having concluded the House resolved itself into a meeting of the County Council.
