Matron's Report.

Made up this week:—

and repaired some old linen articles.

The following Letters, from the Poor Law Commissioners and others, were read by the Clerk, and directions given to answer them respectively to the following effect, (or Orders made on them respectively, as follows):

Letters were read from the Clonsilla and Carlow Unions with reference to the measures which should be taken to prevent the transmission of the Cattle Plague from Great Britain to Ireland, and also to prevent as much as possible the spread of the disease should it extend to this Country.

Resolved On the motion of Capt. O'Hara, it was
That the Board of Guardians be specially summoned to meet on this day fortnight to take into consideration the danger of the spread of the Cattle Plague to Ireland, and the means to be adopted to lessen the evil should this calamity fall on the Country.

Mr. Cullen, Relieving Officer, reported that a strong set of posting harness is required for the Workhouse Van, which will cost
£5:10:0.

Resolved Mr. Harrison is requested to purchase a set of harness for the Fever Van at a price not exceeding £5.

Mr. Cullen reported also that he prosecuted Mary Bane for desertion of her infant child at Clonsilla on the 22nd ultimo, and that she was sentenced to one month imprisonment for the offence.

Mr. Cullinane, Relieving Officer, reported that he has received notice of the intended eviction of one family from the Townland of Barnalloy, Deerpark &c., the property of Richard St. Townsend Esq.

The Chaplain's Book was produced and the following entry read: -

"I have been much pleased with the Schools, and I have been specially gratified by my visit to the Hospital in charge of the good Sisters of Mercy. I feel assured the improvement which is becoming daily more and more visible in the Hospital must amply compensate the guardians for their generosity in attending to the physical and spiritual wants of the sick poor in Hospital -

There is one great moral evil, to which I am certain it is only needed to call the attention of the guardians to have a remedy applied with their usual goodness - The lock-up, or Separation ward, for an unhappy class of poor creatures is, immediately under the ward for little girls, and, unfortunately, every blasphemous or obscene word, which not unfrequently is indulged in by these unfortunates, is distinctly overheard by the children in their ward - The consequences, I need not say, are terrible in a moral point of view, and I know the guardians will kindly give instructions to have a remedy applied.

Resolved - ^{† John McEvilly, Bishop of Galway -}

The request of the Lord Bishop is referred to the Visiting Committee to consider and report how the defect alluded to can be remedied.

The cases of provisional relief, and applications for relief, were considered and decided on, as set forth in the Application and Report Books.

Report of Visiting Committee -
 Wednesday, 7th February, 1866
 Meeting of the Visiting Committee
 Members Present - A. O'Flaherty, Pierce Joyce
 John Harrison, John Gill -
 Capt. Hare also attended -

In pursuance of the resolution passed by the Board of Guardians on the 2nd instant, the Committee met this day at the ~~Workhouse~~ to consider the objections to the present location of females of bad character, and whether they could be suitably accommodated elsewhere -

The Committee having duly considered the subject, are of opinion that a change is desirable, and therefore recommend that the apartment in which the Flax Straw is now stored be appropriated to the use of the lunatics and idiots, and the apartment immediately by the rear of this be converted into a separation ward - In order to divide the space proportionately to the number of each class, the partition wall should be removed more to the front so as to enlarge the space intended for the separation ward -

The Committee further recommend that the room now used as a separation ward be set apart as a laundry for the Hospital clothing; a measure almost of necessity, in consequence of a separate stock of clothing having been procured for Hospital use, and one which will give increased facility in furnishing changes of clothing to all the inmates with due regularity -

A cooking range is required for the Hospital kitchen and in connection with it a boiler which will supply hot water for washing purposes; this arrangement will be the means of effecting a saving in fuel -

The yard attached to the apartments in question will require a wall in the centre to divide it into two; one portion to be the laundry and drying yard, and the other for the use of the females in the separation ward -

M. Roberts very kindly and promptly attended at

The

the request of the Committee to give the benefit of his advice with respect to the proposed alterations, and has promised to furnish a specification.

Moved by Mr. Campbell

That the principle of a rate-in-aid for the benefit of grazing farmers, to which the occupiers of houses in towns and small tillage farmers should contribute, and from which consumers with large funded property would be exempt, is unjust and inexpedient: but that a tax might be imposed on cattle to meet future losses which may fall on farmers by loss of their cattle by plague, and that one penny might be levied as Income-tax to reimburse the farmers in the proportion of two thirds of the value of such cattle for those proved to have died of Rinderpest or killed, - should the Insurance tax on cattle be not sufficient for the purpose of such compensation -

Resolved - That a copy of the foregoing resolution be sent to our town and County members of parliament, to the several Poor Law Unions in Ireland, the Royal Dublin Society, and to the Lord Lieutenant and Chief Secretary.

Mr. George E. Burke moved a resolution, the purport of which was - that there should be but one Medical Officer for the Galway Dispensary District.
 The Chairman declined to put the resolution to the Board.

Mr. Burke next proposed the following resolution -
 That having regard to the fact that for a long period when the population of the Galway Dispensary Dist was much greater than at present, and the medical requirements more extensive, the duties of the Dispensary were most efficiently performed by one medical man, having a salary of £120 a year, this Board will not in future allow any larger yearly payment than £120 for the medical services required for the Galway Dispensary -

The Chairman having decided that this resolution could not be brought forward without the regular 14 days notice, Mr. Burke added to it the following notice:-

I hereby give notice that on this day fortnight I shall move the foregoing resolution, and that a copy be sent to each member of the Dispensary Committee, and that any appointment to be made by them shall be subject to the decision of this Board on this resolution.

 That this Board is of opinion that no unmarried medical man should be appointed to the Dispensary of the Town of Galway, being satisfied that many females have a decided objection to their being attended by such, and even at the risk of their lives would not submit to be attended by an unmarried practitioner.

 A Meeting of the Visiting Committee was held at
 the Workhouse on the 22nd August, 1865, to take
 Stock of the Clothing and Bedding, &c -
 Members present - John Harrison, Joseph Grealy,

Sir, I beg to return you the cheque you enclosed me as it is not the amount of my salary.

C^o moved by Mr. Somerville and Resolved - That the amended plan be referred to the Visiting Committee for consideration -

Stating that this will be desirable also for the information of the Auditor -

(Ordered)

Received Notice from Mr. Martin that he will attend to audit the accounts of the Man for the past half year on the 19th instant -

Ordered. That Ten Shillings be expended in the purchase of Clothes for Julia & James Silk when leaving the Workhouse -

Ordered. That Marganne & Margaret Serrane be discharged in Care of Mrs. Collins at Taylor's Hill -

Ordered. That Ten Shillings be expended in the purchase of Trees to be planted in the Green Hospital grounds -

Deficiency in Bedding - The explanation of the Workhouse Master is to the following effect, -
That on receiving Office in No. 11 Key he found all the articles of Bedding in the several departments of the Workhouse except according to a list furnished him by the late Master, and that to make up the total numbers on the Clothing Books he was handed a list of the Bedding in use in the Green Hospital which completed the Stock -

That he then signed the Clothing Book, making a note that he did so "taking for granted that the General Hospital return of Bedding is correct".

That he had no knowledge that in the month of June 1844 certain articles of Bedding in the General Hospital had been cancelled until the taking of Stock in August last when it appeared that the cancelled articles referred to were included as articles in use, and that he was thereby deceived to that extent by the list furnished to him by the late Master.

The Board do not consider that under these circumstances Mr. Lynch should be required to make good the deficiency.

Master
