The following Report was read,

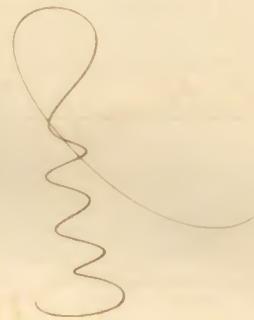

Sir,
Galway 28 March 1861
The Contractor for building the sewer from the Poorhouse has been prevented proceeding with the work by the direction of the late Mr. Martin Blake and as some delay is likely to take place before it can be executed the Contractor has applied to me for a certificate for the payment of a second instalment on account of his contract. He has delivered the necessary materials on the ground and has given me an undertaking which I annex, that he will complete the work when called upon to do so. Under these circumstances I am of opinion that he is entitled to the payment of a sum of £30 on account of his contract this will still leave a balance of £25 which will be ample for the completion of the sewer. I waited on the Visiting Committee at the Poorhouse on yesterday and considered with them the propriety of taking immediate steps to enable the Guardians to proceed with this very necessary work, but in consequence of the death of Mr. Blake it was considered desirable to defer taking any steps in the matter for a short time

I may add that the sewer can be better executed when some dry weather sets in than it could be at present

I am Sir
Your obedient servant
Samuel Roberts

(Ordered) That a sum of £30 be paid the Contractor on account in accordance with Mr Roberts recommendation

Medical Officers Report

The following report was read & adopted, and at which the Board expressed great Satisfaction—

The number admitted into the Hospital of this House from the 25 March 1860 to the

29 Sept^r 1860. was 186 - From the 29 Sept^r 1860 to the 25 March 1861 - 320 persons were admitted, the deaths for the past 6 months were 29 - The general admissions for the first period were 412, and for the 2nd 430, this latter number added to the number remaining in the House on the 29 Sept^r 1860, viz 224, makes 724, it will therefore be observed that the average mortality for one of our severe winters is exceedingly low, being only 4 1/8 per Cent. it must also be taken into account that great distress has prevailed amongst the Poor of the Union, which for obvious Causes materially influences the rate of mortality, it also increases the expense of maintenance or dietetic treatment, is absolutely more important than medicinal -

The school boys were not taken out to walk this week in consequence of the schoolmaster being indisposed. Ten gallons of the milk sent in on yesterday by the Contractor was of an inferior quality. I therefore rejected it the same number of gallons of good milk was immediately supplied by said Contractor. I most respectfully suggest the propriety of putting on a second night watchman. The crops are now getting well up and one man is not sufficient to mind them properly.

Sir
We forward for the information of the Guardians the following extract from the Inspector's Report of the 31st Ultimo on the Galway Poor Law Union National school. "All the children male and female are much better clothed and are neater and cleaner than at my last visit. The Boys are pretty well instructed in the several branches but do not work sufficiently on the farm though such employment would be both morally and physically beneficial in future they are to be taken regularly to the farm. The Girls have not made so much progress as it is desirable they should. The teacher is reported by all the officers and several of the Guardians as most attentive and of this I have no doubt; but her mode of teaching is listless and dull, and she wants energy for the correction of errors, and is deficient in the powers of maintaining discipline. These defects are either constitutional or the result
