 That the person from whom I got Potatoes this week,

That the Magistrates on consideration of his objection, ruled in favor of it, as also in a case against the same person by the Master, for refractory and violent conduct in the Dining Hall on the evening of Sunday last: the person charged with these offences, had been imprisoned before, for thefts from the Workhouse. I request your consideration of the subject, and instructions as to the further proceedings in the case, as a fresh information is laid against her at the suit of the Guardians.

Masters Report.

28th April 1865.

Gentlemen.

I beg to report that some of the milk supplied on one occasion during the week, I had reason to consider that it was adulterated with some mineral substance like chalk; not then knowing with certainty to which Contractor it belonged, I on next day gave a sample of each Contractor's milk to the Doctor to analyze it, and I will next Board day report the result.

That in company with a Police Constable I examined in the Pawn offices certain articles of which he held the tickets that had been found on the person of a pauper named Mary McWough, now in prison; that of two sheets found in different offices, one of them evidently had the appearance of having had the Union Brand cut away and pieces substituted; the other of like material had no trace of the Brand: they are in good condition, and the sum of 1/3 is due on each sheet; other articles mentioned in some of the tickets were not Union property.

That Mr Madden delivered here on last Saturday a week's supply of Potatoes at 4^d per stone.

That I got cleaned the Union Star seed and had it sown on the farm, and require your order for an additional quantity for to seed the land set apart for Star.

That one of the Cookhouse Boilers which was reported some time since as having an extensive flaw in its bottom has a few days ago become wholly useless by the piece having fallen out; this is a great inconvenience, as it was one of those most in use, your consideration of the matter is requested.

ordered - Inquire price of a new Boiler.

That on one occasion I returned a portion of the supply of meat for the Hospital as not being sufficiently fresh and got better meat instead.

(over)

I beg to call your attention to the Doctor's recommendation that rations be given to an active woman to take charge of the Female Infirmary Ward.

Brodie, Poor Law Inspector, of his recent inspection of the Workhouse and on the affairs of the Union generally. Read Letter from Secretaries of National Education Board, dated 16th May, 1865, forwarding the following extract from the District Inspector's Report of the 12th ultimo on the Workhouse School: -

"The course of moral training seems to be all that can be desired, judging from school-room observation, and the literary instruction is quite up to the wants of the children, and beyond the minimum marked down in the official Programme.

"In the boys' department especially I find a marked advance in intelligence and observance of order and decorum during the year ended 31st March last, notwithstanding that twice lately offences have been committed by Mal-Contents in order to render themselves amenable to punishment which would withdraw them from the trammels of school life, and the particular scale of dietary allotted. Twelve of the more grown boys have lately been removed to the workrooms, and are being initiated in the use of the thimble or awl, and the remainder seem happy and contented, and are making satisfactory progress.

"In the girls' school the proficiency is also creditable, but the progress is less marked than in the boys' department, inasmuch as there was not so wide a margin for improvement. The schools are well conducted."
