Ordered that the following Reply be given to the letters received this day from the Commissioners.

Gentlemen

We have received your letter of the 21st Inst. requiring us to give an order upon the Bank of Ireland for five Instalments due from this Board to the Auditors fund, and in informing you that we have no money in hand, we beg again to draw your attention to our letter of the 2nd of October, "in which we required the permission of the Commissioners, to borrow a sum of Money at interest from our Treasurer to keep the house going, "as we had no provisions or fuel in the House, no clothes in the Store "and no person would contract to supply us in consequence of our embarrassments."

The House would have been closed long since had it not been for the generosity of a few of the Guardians, who nobly came forward,

upon their own responsibility, and raised a sum of one thousand pounds for the Maintenance of the House, this sum has now been expended, and no Guardian will again come forward, more especially as they conceive it has been an ungrateful task, and has drawn upon them, unfortunately the censure of the Commissioners, we request therefore, that Mr Hancock or some other assistant Commissioner will be ordered to attend this Board upon Friday the 11th Decem^r, to meet the Guardians, and for which a special meeting is ordered, when the Books can be examined, the state of the House seen, and report made by him to the Commissioners, which will open their Eyes, to our lamentable situation, which may urge them to take some decided steps for the future maintenance of the Establishment

The following Letters from the Poor Law Commissioners and others were read by the Clerk, and directions given to answer them respectively, to the following effect, (or, Orders made on them respectively, as follows:)

From the Medical Officer
To The Board of Guardians, Gort Union
Gentlemen.

I have to report that Matty Storey aged 6 yrs died of effusion on the Chest on the 15th inst and Peter Council aged 73, who had been suffering from Spasmodic asthma, died suddenly on the same day, I should suppose from the rupture of a blood vessel in the lungs.

If some decisive step be not immediately taken to check the spread of Dysentery in the Workhouse I cannot say where it will stop, it is really melancholy to go through the wards, and to witness its extent, without making an effort, to check its progress, or mitigate its severity, it is painful to me to make those reports, seeing that those hitherto made have not been attended to, but a sense of Public duty, and the responsibility that attaches to my situation, compels me once more, to draw your attention to a state of things, that ought at any risk or sacrifice, to be remedied.

The measures I would respectfully submit are as follows.

- 1st A proper and regular supply of fuel through the House which is deplorably defective.
- 2^{dly} The same observations relative to Clothing.
- 3^{dly} That each pint of Soup should be made from at least 1/2 lb of Meat & that 2oz of Rice be added to each pint.
- 4^{thly} That two large wards on each side of the House, well aired and ventilated, with a proper female attendant to each, be appropriated for the reception of those Dysenteric Cases, with all suitable accommodations. At present they are all scattered through the House lying in their filth and dirt, without a single person to attend them, a circumstance in itself sufficient to propagate the Disease.

These are the suggestions I feel called upon to make at present, I have every hope if they be strictly carried into operation, that we shall have to congratulate ourselves, on the speedy subsidence of the Disease. I think I cannot do better than conclude this report by quoting, a paragraph from the writings of the late Dr Cheyne on this Disease, He observes, "little benefit can be expected from mere prescription, unless an Hospital be suited to the Disease, which it contains, unless proper regard be paid to comfort in the supply of the patient's food, to the cleanliness of his person, to the spaciousness of the ward, to the purity of the air which he breathes, and to his feelings, when those things are neglected, the consequence is not merely, that recovery is retarded, but that new complications of Disease arise."

I have the Honor
to be Gentlemen
Yr Obedt Servant,
Martin Nolan M.D.
