Sir, We beg leave to forward, for the perusal of the Board of Guardians, the following extract from the report of a visit paid to the above named school on the 14th ult. by the Inspector of the district; - It would be an agreeable task if I could report so satisfactorily of the intellectual progress of the children as of the particularly clean and neat appearance of the school-room. Miss Burke has shown so much want of care in classifying her admissions notwithstanding my suggestions on the subject at last inspection I found the state of things in this respect still worse than before. Besides two boys in the third book, she presented one ten boys & four girls in the low first book, none in the high first and four boys and as many girls in the second book. Of the latter there were only two girls fit for the class in which they read, and one of the boys of the low first was equally competent with them. After reclassifying the children by promoting this boy once to the second class, and forming the four boys and two of the girls of her second class into a high first class I found the proficiency in reading and writing was fair; in grammar & geography tolerable while in Arithmetic and Dictation it continued bad. In future admissions besides simply asking a child what class it will be placed in, it is desirable she should also discover if it has some slight degree of fitness for that class. In marking the rolls too hardly conceive it admissible that she should herself be competent to foretell what will be the attendance on a future day. The school appears to be in a stationary state and unless great efforts are made for its improvement the children cannot be expected to make any progress. We are Sir

Read letter from Poor Law Commissioners No. 13691
16th July 16 acknowledging the receipt of the Minutes of Proceedings of the Board of Guardians on the 10th Instant, from which it appears that the Guardians propose to consider at their meeting tomorrow the Report they have received from the Commissioners of National Education relating to the unsatisfactory condition of the Workhouse School, and in reference thereto the Commissioners desire to state that they understand from their Inspector Mr. Burke that Miss Burke is not a good teacher, and the Commissioners think the Guardians would do well to call upon her to resign, and obtain a better qualified officer.

Read to Miss Burke and she is informed that the Board are disposed to allow her three months further trial and in case the Inspector should not in his next report announce a marked improvement in the progress of her pupils and other duties the Board will feel themselves bound to act upon the recommendation of the Commissioners by calling on her to resign.

Ordered that the Master dispose of the outside leaves and waste cabbage on the Workhouse farm in the manner prescribed by the Board order of this day

I object to the minutes of the 10th July last as far as they relate to the suit of D^r Inubville against the Guardians of this Union because it may be inferred or appears thereby that he obtained a Decree on the merits whereas the contrary was the fact - the Chairman having declared that in point of law there was not a single datum to sustain his case against the Rates of the Union - but in as much as the Guardians lodged money in Court in bar of further claim they admitted their liability so far and that all that was left to him & the jury was to determine what was a fair remuneration for D^r Inubville's services

I desire therefore that the minutes should be amended in this particular so that this case should not hereafter be made an authority or a precedent for a misapplication of the Rates: and that the Poor Law Commissioners and the Auditor may determine who is to recompense the Union for the loss sustained in the present case I desire also to refer the Commissioners to the first letter they wrote when D^r Inubville's demand was first mooted at this Board viz 30th October 1865 N^o 19355
