The Inspector states that some gravel is required for the path leading to the Fever Hospital, that the Chimney Shafts need painting and that the interior of the Workhouse has not been painted for seven years. He further states it is desirable that the male and female sides of the Hospital should be furnished with a water closet each and the Medical Officer concurs in the recommendation

Mr Lynch Staunton points out that the Relieving Officers do not report in writing on the condition of the children sent at nurse.

The Board request the several matters adverted to may be duly considered by the Guardians. Ordered—Gravel will be put on the path to the Fever Hospital; The Chimney Shafts have ^{since} been painted. Resolved - "At the meeting held this day and specially convened for the purpose, the Guardians have fully considered the Res^d P. S. Davoren's letter to the Local Gov. Board relative to the water supply of the village of Kivara.

The Board are of opinion the present supply is sufficient and of good quality though somewhat inconveniently situated, but owing to the opposition of the rate-payers of the locality - a large body of whom attended here today to oppose any increase in the rates for this matter - they are not prepared to take any steps to bring the water nearer to the inhabitants of the Town. However, if additional water be required the Guardians will try to provide it if the rate-payers of the Town consent to pay the costs."

Resolved - "The Board having considered Mr. Lahiff's letter relative to the pollution of the Gort river near his house are of opinion the Sisters of Mercy acted illegally in laying pipes into the river and they therefore request the removal of these pipes and the diversion of the sewerage into some place other than the river as recommended by Mr. Perse C.S."
