Judging from past experience and the very superior ventilation of the several buildings I should have no hesitation in saying the whole accommodation above referred to might with the addition of extra day room be made capable of accommodation without any injury to the

The following Orders of the Poor Law Commissioners were laid before the Board and directions given thereon, as follows:-

Sumatey 2000.

If the day room accommodation, were considerably increased, it would of course still further add to the general accommodation of the whole Establishment by allowing the present day rooms to be converted into dormitories, there is now ample accommodation for the beds in the Dispensary buildings and as it would considerably add to the comfort of this class to have them removed to the place originally intended for them, whilst by so doing you will greatly increase the general workhouse accommodation. I think it would be well to make an order this day on the subject. - It is now very important to provide winter help in to have all the sheds on the premises put into a state of thorough repair.

He reports the supply of milk to the hospital on Saturday last was 20 gallons that of this estimate the quality of the milk still continues very inferior. - The Pump in the Town Hospital yard should be either completed or covered in at present it is a complete nuisance.

Ordered in reference that our collectors to the Commissioners letter of the 11th Inst. our collectors be called upon to account for their collection once a fortnight, but that they be obliged to lodge the amt of their Collection weekly and that the days for accounting with the Clerk be every second Tuesday.
