The Medical officer reported as follows

I beg to say that I have had three cases of infectious fever in the Workhouse Infirmary during this week. As soon as the character of the disease ~~was ascertained~~ was ascertained I had a number of the Infirmary Paupers (who owing to the want of an Infirmary ward on either side of the House were of necessity kept in the Infirmary) removed into the body of the building. I regret to state that one of the cases terminated fatally on yesterday evening, and to report that another case brought into the House on the same evening is in a most hopeless state. There are other infirm paupers who are unable to leave their beds, besides a number of chronic cases that cannot be removed and consequently are exposed to a certain extent to contagion. I would respectfully call the attention of the Board to this matter that some means may be devised to prevent the spread of disease.

Report of Medical Officer

I am happy to state that there has not been any increase of fever since my last report. The case alluded to in said report as hopeless terminated fatally on the following day (Saturday). The unfortunate man never spoke since his admission - it is to be regretted that his friends did not take advantage of any Dispensary Relief, or that they did not ask admission to the man into the Workhouse before all hopes of his recovery were past

The rough draft of a building which in cases of emergency could be converted into a temporary Fever Hospital will be laid before the Board. In my opinion it would be one of the most useful buildings in the entire Establishment in case it was not required for contagious diseases it would then answer all the purposes of Infirmary Wards, the want of which on either side of the House we have daily to deplore - portions of it also could be used as store houses which are much required in this Establishment. The changing of the present Dead House into a Kitchen for the Infirmary and temporary Hospital would be a great advantage, as by doing so the present staff with a very small addition would be able to work both establishments.

I have to report that Pate Lyons Porter has been suddenly attacked by a severe bilious affection.
