The Board desire to say in reference to the Commissioners' letter and the Doctor's Report thereon, that as some portion of the time allowed the contractor to supply Beer has passed over and also as his supply of Milk is increased the Board consider it better not to make any charge as no bad effects have followed the temporary alteration.

The Guardians desire to say that the Collectors are ordered to attend here on this day week, with lists of arrears when the whole subject will be considered by the Board.

Letter stating that they have had before them Minutes of Proceedings of the Board of Guardians on the 24th instant containing a report from the Medical Officer of the Workhouse relating to the insufficient supply of milk for use in the Workhouse, in which he suggests that when Milk is scarce Beer should be given to the inmates with the Skirabout prepared for them, and in reference thereto the Commissioners recommend for the consideration of the Medical Officer of the Workhouse the propriety of using Meat in the soup of the inmates who do not receive Milk, the nutrient contained in which would not be supplied by beer. The Commr^s at the same time suggest that Bread with Coffee or Cocoa should be allowed the inmates when not supplied with Milk for Breakfast.

Dispensary District, approved by the Committee of Management, was laid before the Board, with a
Requisition from the Committee for the supply of the same, and Directions were given thereon
as follows:

Ordered That the Medicines to be procured
from the contractors Messrs. Orleans Brothers -

On application of the Committee of Management of the
Dispensary District, the following supplies of Books, Stationery, Forms, or other requisites, were
ordered to be supplied:

The following Letters on matters arising under the Medical Charities Act, from the Poor Law Commissioners and others were read by the Clerk, and directions given to answer them respectively, to the following effect (or Orders made on them respectively as follows:—)

Read Letter from Commissioners dated 3rd April 1854
stating that

great advantage to the Union would arise were the Guardians to ascertain, from the entries in the Register, the previous residence of patients admitted during the last year into the Fever Hospital labouring under fever, with a view of directing inquiry to be made by the Relieving Officer, or other servant of the Board, into the sanitary state of the pauper's residence, and the neighbourhood thereof; and in case of the detection of the existence of filth or any nuisance to cause its removal,

The Commissioners find from the Reports of the General Board of Health, and other sources of information that Fever, Cholera, and other infectious or Epidemic diseases revisit the same neighbourhoods and re-appear in the same houses on the occasion of the outbreak of Epidemic disease as had suffered on previous visitations and the Commissioners think that no possible exertion should be spared to render the sanitary state of the country satisfactory, and so to mitigate, if not avert, the impending danger of cholera.

The following Report was read,

Though but a few months have elapsed since my first visit to this institution, and that that period has been the most unfavorable for the performance of farm work, I was much gratified with the amount of improvement effected; and though much still remains to be carried out, I confidently expect, judging from the efficient commencement that has been made, that in a short time the industrial (agricultural) department of this Workhouse will be in a very satisfactory condition.

I was glad to find that the suggestions offered at my previous visit for the systematic cultivation of the land have been duly attended to. I trust at my next visit to find the instruction of the boys as well as the careful cultivation of the land all that can be desired.

I shall feel great pleasure in recommending to the Board of National Education that a gratuity shall be awarded to the Officers having the superintendence of the agricultural Department,
