Title: Medical Relief Register for the Portumna Dispensary
Dates: 1 May 1881 to 29 April 1884
Extent: Approx 200ff

CONTEXT

Creator(s): Portumna Poor Law Union

Administrative History / Biography

The Poor Law Act for the *'more effectual Relief of the Destitute Poor in Ireland'* was introduced to Ireland by the Poor Relief (Ireland) Act, 1838 and operated until 1925. The Poor Law system was originally constituted for the sole purpose of relieving paupers in workhouses, but by the 1880s had gathered to itself a great variety of powers. George Wilkinson, Architect, designed the workhouses. Under the Act the country was divided at first into 130, later increased to 163, different poor law union administrative districts, each of which had a workhouse, financed by poor rates paid mostly by landowners. Portumna were established in 1852

Archivist's Note

Descriptive list prepared by Patria McWalter, Archivist, 2000

Scope & Content

Medical Relief Register for the Portumna Dispensary district recording details such as date of presentation of ticket (granting permission to avail of relief) by the patient to the Medical Officer, name of patient, residence of patient, age, disease for which the patient was treated (such as sore hand, shingles, bronchitis, hernia, toothache and influenza) date of each attendance from the commencement to the termination of the case, prescriptions and treatment given in each case, and the result, such as 'Relieved', 'Cured', 'Sent to Hospital' or 'Dead'. Also includes index (A-K) of patients. Includes several counter-folios of Ticket for Attendance at Dispensary giving doctor's name, patient's name, age and residence, date and signature of the Member of Dispensary Committee, Relieving Officer, or Warden.

(General observation - several pages have been torn out of volume).

FORM F.

MEDICAL RELIEF REGISTER.

Portumna Dispensary District,

IN THE

Portumna Union.

Directions for filling up the Medical Relief Register.

Column 1.—The series of numbers is to run from the beginning to the end of the year; and a fresh series is to be commenced on the 1st January in each year, beginning with the *first new case* on or after that day. The same patient is not to have a second number, except in the event of a second or subsequent illness within the year, in which event he should, on presentation of a fresh Ticket, be registered again with a fresh number, as a new case, reference being also made, in the Column for Observations, to his previous number.

Column 2.—The date on which the Ticket is presented to the Medical Officer is to be inserted in Column 2.

Columns 3, 4, 5 and 6.—The Christian and Surname of the patient are to be inserted in full in Column 3; the residence of the patient in Column 4; the age of the patient, as well as can be ascertained, in Column 5; and the disease for which the patient is treated in Column 6.

Columns 7 and 8.—The date of each attendance from the commencement to the termination of the case is to be entered in these Columns; if the attendance is at the dispensary in Column 7; if at the patient's home in Column 8.

Column 9.—Should contain a record of the treatment of each case. The date of each attendance, as entered in Column 7 or 8, should be entered in this Column also; with a description of the prescription or treatment at each date. If in any case the attendances and prescriptions should be too numerous to admit of their all being entered in the space provided for the purpose, a new entry of the case may be made at a subsequent page of the Book, but not with a new number, a reference being made in the first entry to the page of the Book at which the case is continued.

Column 10.—Is to contain a statement of the result of the case, as "Relieved," "Cured," "Died," "Ticket Cancelled by Committee," and in the latter case, the date of the meeting at which the Ticket was cancelled should be entered, and the Chairman of the day should place his signature or initials against the entry.

Column 11.—This column is intended for any other particulars, directions, or explanation as to any case which the Medical Officer or the Chairman of the Committee may think it desirable to insert. A sufficient number of leaves (with the letters of the alphabet marked on spaces cut at the outer edge) is bound up with the Register, to serve as an Index.
