*Individual figures within each tier may not calculate exactly to the subtotal figures due to rounding of numbers.

*Column 3 is based on (average household size 2.4 for Tuam and 2.6 for all other towns/villages) and the density specifications set out in Column 7 (ii).

**Column 4 is calculated by adding 50% to figures in Column 3.

***Column 9 is acquired by subtracting Column 4 from Column 5.
