Galway County Council was notified of its Regional & Local Road Grant Allocations in the amount of **€22,682,148** on the 22nd of February, 2010 (*Circular RLR 04/2010*).

The Department of Transport has refocused the Regional & Local Road grant categories for 2010, in order to provide Local Authorities with greater flexibility to deal with the urgent repair of damage to the road network arising from the recent flooding and prolonged severe winter weather. The priority is to protect the existing network and the major investment made in it over the last number of years.

The Restoration Improvement Programme has been suspended for 2010. The Restoration Improvement Grant and the Discretionary Improvement Grant have been amalgamated into a single "2010 Improvement Grant" The main criteria for this category is that funding must be directed at remedying road defects, road strengthening and drainage.

The total grant allocation of **€22,682,148** for Regional & Local Roads divides as follows:

REGIONAL & LOCAL ROADS TRAINING PROGRAMME:

A grant of **€111,746** was also provided by the Department of Transport towards the Regional & Local Roads Training Programme. This is similar to the 2009 allocation.

STRATEGIC REGIONAL & LOCAL ROADS (SNNR) GRANTS:

Introduced in 2006 this stream of grants caters for schemes that make a significant contribution towards the National Spatial Strategy but are significantly larger than those normally funded out of the Specific Improvements Grant Scheme. A grant in the sum of **€1,200,000** has been provided under this category for the **Conamara Access Road (Berna to)** and a further **€1,500,000** has been provided for the **Athenry Northern Relief Road**. The 2010 Improvement Grant comprises the amalgamation of the Restoration Improvement Grant and the Discretionary Improvement Grant on a once off basis for 2010. It provides greater flexibility to deal with the damage sustained by the Regional & Local road network.

The main criteria for the 2010-Improvement Grant is that funding must be directed at remedying road defects, road strengthening and drainage in order of priority in respect of those roads which were worst affected by the damage caused by the flooding and severe winter weather.

The selection of projects is made on the basis of overall needs/priorities and on the basis of criteria, which reflect their importance (level of usage, category of vehicles served etc) and the extent of their damage / deterioration.

It is proposed to allocate a total of **€800,000** for the Regional and Local Roads Bridge Programme and **€196,495** as a contribution towards the Community Involvement Scheme. In addition, a sum of **€124,168** is provided to facilitate International Roughness Index (IRI) testing on a number of schemes. The balance of the grant has been allocated as follows:
